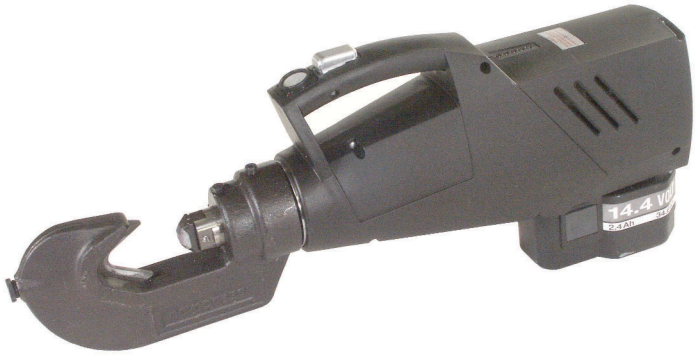
New Battpac LT® Crimping Tools

More Power, More Crimps, And Less To Pack

Electrical contractors and MRO professionals will appreciate the unique advantages of the new lightweight crimping and cutting tools Thomas & Betts has added to its Battpac LT® Color-Keyed® tool line. These efficient and ergonomic tools are 14.4-volt battery operated, feature a forged steel head, and superior hydraulic and motor drives. They come complete with a carrying case, strap two batteries, charger and are backed by one of the best tool service programs. Best of all, never before has anyone offered as many lightweight choices for a variety of applications.

T&B's Battpac® LT tools include these features:

- Ventilated, Air Cooled
- Powered Using Industry Standard 14.4V Batteries
- Distinctive Ergonomic Design
- Reduced Weight
- Competitively Priced
- Fast Battery Recharge
- 1 Year Warranty (Includes Battery)



12-Ton Dieless Battery Powered

This is a self-contained 12-ton compression tool that features a unique dieless compression system. Using commonly found 14.4V battery, the TBM8-750BSCR puts portability and convenience of a dieless compression tool in a lightweight, economical package. 8 AWG – 750 kcmil range.
